

FOR THE ATTENTION OF COLLEAGUES IN THE COMMISSION, LUXEMBOURG

Dear colleague,

You have followed the discussions about the changes to our Staff Regulations proposed by the Commission. You will have received E-mails, paper tracts from various Trade Unions, and may even have participated in the DG HR Forum on *TheirIntracom*.

Upon reading this material, you will have noticed the high standard of the articles published by **U4U**: informative, coherent and also making clear to the Commission the faults and dangers in their proposals, while suggesting viable alternatives to make savings to face the current *Crisis*.

U4U is a relatively young Trade Union. It was launched in Brussels in September 2009. At present, it already has more than 1,000 members, is recognised as representative, is at the forefront of trade union unity, is represented in almost all DGs and organises frequent decentralised meetings.

U4U encompasses a *relaunched* trade union structure, that is united and close to colleagues. It wishes to establish a presence in all sites, all DGs and buildings. Luxembourg is of course, at the heart of the priorities and concerns, of this new co-operative trade union movement.

If you would like to join this participative initiative and to bring democracy back to staff representation, we are here to listen to you.

We would like to establish a network of **U4U** members in each of the Commission buildings in Luxembourg, who would meet on a monthly basis and report back to the general secretariat of **U4U**, regarding Luxembourg-specific issues.

We are therefore seeking colleagues who can actively help out, by writing articles for the **U4U** E-magazines, doing occasional translations of texts to/from German/English and French, and by considering standing as a **U4U** candidate in the next CLP elections in Luxembourg,

We thank you in advance for your commitment, knowing that we can count on you, just as you can count on us.
