Objectives and Commitments

Chiara:

I have always believed in the power of the little steps and that each of us can make the difference, nevertheless I am deeply convinced that together we are much stronger and this is why 2 years ago I joined U4U. The experience as vice-president of F4E-U4U has given me the opportunity to find back my youth ideals of “social participation” and this is why I feel now ready to actively do something for F4E and make it the best EU agency to work in, not only for being based in Barcelona!

Gerard:

I believe in the value of serving the community. I prefer to take the actions rather than wait for others to do it. I am an enthusiast of communication and I care a lot about understanding and being understood. Pragmatism is my defining characteristic. Being part of U4U core team during the last 2 years has revealed that the communication with F4E Administration can be a win-win relationship but needs effort.
